

ENGINE & COMPONENT OVERHAUL

HONEYWELL T-53 OVERHAUL & REPAIR

Rotorcraft Service Center provides Engine repair and overhaul for the Honeywell T53-L-11, T53-L-13 and T53-L-703 series engines. We operate one of the first FAA approved Test Cells for the T53 engine so every engine has a test run before it is returned to service.

COMPONENT REPAIR AND OVERHAUL

Rotorcraft Service Center provides component repair and overhaul for Bell 204, 205, 206 series, 212, OH-58 series and UH-1 series aircraft. Other services include Magnetic Particle, Liquid Penetrant Inspection, testing and limited welding of aluminum and stainless.

ROTORCRAFT ADVANTAGE

Rotorcraft Service Center is the largest UH-1 Type Certificate holder in the world.
